By Youth Who Calmly
Tells Police Details of
Triple Murder

VICTIMS' THROATS CUT

After Deed Was Committed
At Ironton, Murderer
Stole Twenty Dollars and
Went to Chicago, Where
He Was Arrested.

(ASSOCIATED PRESS TELEGRAM)
Chicago, May 15.—Harley Beard,
18 years old, arrested here this after-
noon, confessed to the murder of
three persons on a farm near Iron-
ton, O., last Thursday.

Beard, with perfect calmness in
the presence of detectives said that
he first beat his victims on the head
with a stick of wood and then com-
pleted the work with a razor.

Those he killed were Robert Mas-
sie, 45, his sister Mary, 46 and then
mother, Mrs. Nancy Massie 80 years
old. Beard was arrested at the
home of his sister, Mrs. D. F. Day,
of 1331 West Madison street.

"I went to work for the Massies
last September," said the prisoner,
whose words were written down by
a detective. "I worked for them all
winter and we got along all right al-
though on the whole they treated me
pretty rough, particularly Bob. Last
Monday morning at 3:30 or 4
o'clock Mary and I got up and
hitched up the rig for Bob. He said
he was going to Ironton or to Ar-
lington to buy some furniture.

"Mary followed me to my room,
and when I ordered her out we
quarrelled. Then her mother came
and goaded me, and when I tried to
answer back that I was not at fault
she wouldn't listen.

"Bob got home about 11 o'clock
that night, and then Mary's story
was told to him. He did not say
much to me Tuesday but Wednesday
afternoon while he was nailing a
board on the fence he tried to hit
me with a hatchet. I warned this
blow off but the next one landed,
and he said he would cut my head
off.

The confession recites that after
this Bob started for the house, Beard
following. The fight was renewed.
Beard picked up a stake and as Bob
reached the doorway he hit him over
the head. Mary came running up
and was felled with another blow
and the same fate was dealt out to
the aged mother. Beard continued:
"And so I did not think the Mas-
sies were dead and I cut their
throats with a razor."

This ended the confession, except
that the relator added that he was
not sure whether he cut Bob's
throat.

The arrest was made on infor-
mation telephoned from the sheriff
of Ironton county who said that Beard
after the murders ransacked the
house, stole \$20 and two gold
watches, drove to the railroad sta-
tion and took a train for Chicago.

AFTER HUERTA—WHAT?

MOTHER SON AND DAUGHTER WERE VICTIMS

(ASSOCIATED PRESS TELEGRAM)
Ironton, O., May 15.—Mrs. Den-
nis Massie, her son Robert and
daughter Mary, were murdered last
night at their country home at
Groasy Ridge, this county, 25 miles
from Ironton, their bodies being
found today. The mother, 75 years
old, the son and daughter past 45
were prominently connected in this
city, another son being tax Commis-
sioner W. E. Massie. Miss Mary
Massie was found in the kitchen of
the house with her hands tied behind
her back and her throat cut. Robert
was found in the back yard with his
head battered in and the aged
mother was found in the front yard
with her throat cut and skull crushed.

The police claim that the posi-
tions in which the bodies were found
strongly indicated an attack on the
daughter, the pursuit and murder of
the aged mother in the yard and the
waylaying and killing of the son
near the barn.

A search is being made for Har-
ley Beard, aged 21, a man employed
on the place, who is said to have
disappeared.

GASOLINE EXPLOSION KILLS TEN

Large Rubber Company's
Plant in Detroit Is
Blown to Pieces

SKILLED MECHANICS

For the Most Part Are
Victims of Terrible Cata-
strophe—One Body Blown
Through Building—Three
Men Fatally Burned.

(ASSOCIATED PRESS TELEGRAM)
Detroit, May 15.—Ten men were
killed and three terribly injured in
an explosion this morning which
blew the plant of the Mexican Crude
Rubber company to pieces. There
were about twenty-five employees
working in the plant. Eleven sur-
vivors have been accounted for.
Gasoline is believed to have been
responsible for the explosion.

Most of the victims were skilled
mechanics. One body was blown
through the building. Three men
were removed to a hospital and phy-
sicians said they did not expect any
of the men would survive. Dozens
of windows in buildings near the
rubber company's plant were shat-
tered.

There were several reports as to
the cause of the explosion. Surviv-
ors said a vat containing a large
quantity of molten rubber exploded.
Officials of the company declined to
issue a statement until they had con-
ducted an investigation.

The plant, a one-story concrete
building in West Detroit, was almost
obliterated. Flying chunks of sub-
stance riddled adjoining buildings,
and concrete blocks weighing several
pounds were found more than two
blocks from the scene of the explo-
sion.

The factory of the Commerce Mo-
tor Car company, about 100 feet
from the rubber concern, was badly
damaged.

At first it was reported gasoline
was responsible for the accident.
Later it was said that sulphuric acid
was probably the cause. The com-
pany shared the latter opinion.

STATISTICS SHOW A DECREASE FOR MONTH OF APRIL

(ASSOCIATED PRESS TELEGRAM)
Washington, May 15.—Decrease in
value of exports of bread stuffs, cot-
ton and cotton seed oil in April,
1914, compared with April, 1913, but
an increase of cattle, hogs and sheep,

exports were shown in statistics of
the department of commerce today.

Corn showed a remarkable decrease.
Exports last month amounted to
only \$508,806, compared with \$3,262,-
671 in April, 1913. It was suggested
a comparatively short crop last year
was responsible in part for the de-
crease. Breadstuffs exports in April,
1914, amounted to \$4,497,740, com-
pared with \$15,537,157 in April, 1913.

Exports of cotton seed oil decreased
from \$2,238,139 in April, 1913, to
\$1,232,848 last month. Valuation of
cotton exports fell off from \$23,670,-
000 to \$24,606,171.

Exports of mineral oil showed a
slight decrease over those of April,
1913. Last month their value was
\$14,520,357.

THOUSANDS SIGN PETITIONS FOR GOVERNOR COX.

(ASSOCIATED PRESS TELEGRAM)
Columbus, May 15.—Arthur Espy
chairman of the Hamilton county
democratic central committee in a
letter to Governor Cox today inform-
ed the governor that he was for-
warding nominating petitions for the
governor which contained 5,000
names. Another set of petitions
containing as many more names
would be sent soon, Mr. Espy said
in his letter.

Jack Rose Two Years After He Aided in Rosenthal Murder

Jack Rose, who, according to his
story in the trial of Charles Becker,
former police lieutenant of New York
City, was Becker's chief agent in the
murder of Herman Rosenthal, again
took the witness stand when the case
against Becker was called. He told
much the same story he had given
on the first trial.

Rose has changed considerably
since the first trial. He has lived in
the country, and had reformed or
pretended to reform, for he has been
preaching temperance and honesty.
He was calmer and showed fewer
traces of the life he had led when
he was a habitue of the east side
in New York.

Meeting Of Mediators Has Been Postponed Until Two Days Later

ROW ON OVER THE PAYMENT OF DETECTIVES

Mine Guards and Militia, in Colo-
rado Legislature, for Strike
Service Recently.

(ASSOCIATED PRESS TELEGRAM)
Denver, Colo., May 15.—The re-
fusal of the Colorado House of Rep-
resentatives yesterday to concur in
the Senate's amendment to the mili-
tary expense bond issue, and the
failure of the joint conference com-
mittee last night to agree on the
proposition in the measure to refuse
payment as militiamen, to mine
guards and detectives who enlisted
in the strike zone after the strike
was called, today necessitated the
appointment of a second joint con-
ference committee.

Second in interest, perhaps to the
military maintenance bond issue bill,
is the resolution introduced yester-
day in the Senate by William C.
Robinson, Progressive, asking Gov-
ernor Arams to retire "in the in-
terest of the state."

MILITIA COURT-MARTIAL.

(ASSOCIATED PRESS TELEGRAM)
Denver, Colo., May 15.—Testi-
mony bearing upon the case of the
death of Louis Tikas, "Louis the
Greek" leader of the Greeks in Lud-
low tent colony was expected to be
brought out today at the general
court martial of Troop A, and Com-
pany B, Colorado National Guard
which participated in the battle of
Ludlow, April 20.

The disappearance of Tikas on the
day previous to the battle, strike
leaders claim was the cause of hos-
tility on the part of the strikers
which culminated in the four days'
warfare subsequent to April 20. It
is claimed by strikers that Tikas was
summoned to a conference with
Major P. J. Hamrock, commanding
the troops at Ludlow and never re-
turned.

ENGLISH WOMAN GOLF CHAMPION.

(ASSOCIATED PRESS TELEGRAM)
Hurstington, Eng., May 15.—Miss
Cecile Leitch won the British Wo-
men's golf championship today, de-
feating Miss Gladys Ravenscroft,
woman champion of the United
States by two holes, up and one to
play.

THREE KILLED WHEN AUTO WAS HIT BY TRAIN

(ASSOCIATED PRESS TELEGRAM)
St. Louis, May 15.—Three persons
were killed at Kauffman, Ill., eleven
miles east of Edwardsville, Ill., today
when an automobile in which they
were riding was struck by a Toledo,
St. Louis and Western train.

The dead, all of whom lived in
Marine, Ill., are:
John Stuckwisch.
Mrs. John Stuckwisch.
Oscar Maurer, brother of Mrs.
Stuckwisch.

Stuckwisch was a bookkeeper in a
mill at Marine, Ill., and with his wife
and brother-in-law he had started for
an automobile ride to Jacksonville,
Ills.

DISAPPEARANCE EXPLAINED BY A THREATENING LETTER

(ASSOCIATED PRESS TELEGRAM)
New York, May 15.—The disap-
pearance on Wednesday of eight year
old Frank Lango, son of a prosperous
East Side banker was explained
last night when the police gave out
a letter received by the child's
father, demanding the payment of
\$5,000 with instructions to "keep
away from the police or your boy
will come home to you in a box and
harm will come to your family."
The letter was mailed in Brooklyn.
Detectives have been assigned to
hunt for the boy and his kidnappers.
Two years ago the five year old
son of Cosmo di Fiore, a banker,
and a brother-in-law of Lango, was
kidnapped and held for ransom.
The boy was kept prisoner several
weeks and then was found wandering
about the streets of Brooklyn.

REFUGEES RETURN TO THEIR HOMES.

(ASSOCIATED PRESS TELEGRAM)
London, May 15.—Lord Cowdray's
manager at Vera Cruz cables today:
"Reports from Tampico state that
the British families and other Brit-
ish refugees who had sought shelter
on board ship have now returned to
their homes on shore. The town is
quiet. It is reported the federal
troops are retreating to San Luis
Potosi."

At Request of Brazilian Ambassador, Who Does Not Wish Mexican Envoys Hurried In Their Trip From Mex- ico to Niagara Falls

DIPLOMATIC FORMALITY IN FAREWELL TO PRESIDENT

From the 3 Mediators Must Come Any Plan Which Has
For Its Object the Settlement of Mexican Situation
As the American Representatives to Conference
Have No Plenary Powers, and Their Character is
Entirely Unofficial—President Wilson Expresses
Hope That the Mediators Will Return With Satis-
fatory Solution.

(ASSOCIATED PRESS TELEGRAM)
Washington, May 15.—The open-
ing of the negotiations of the South
American mediators in the Mexican
controversy at Niagara Falls, Ont.,
was today postponed until Wednes-
day, May 20, the state department
announced. The sessions were origi-
nally scheduled to begin Monday
May 8.

The delay was arranged at the re-
quest of the Brazilian ambassador,
Mr. Dagama, in order that the Mex-
ican delegates to the conference,
who are speeding northward from
Key West today might not be un-
duly hurried in their trip to Niagara
Falls. The Mexican delegation will
reach Washington shortly after noon
tomorrow and they will be given an
opportunity by the postponement to
spend some time in Washington, in
touch with the situation here, before
proceeding to the formal negotia-
tion.

The three South American envoys
upon whom rest the hope of a peace-
ful solution of the Mexican imbrog-
lio today paid a formal visit of fare-
well to President Wilson before their
departure for Niagara Falls, Ont., to
begin their peace negotiations. All
the ceremonial of formal diplomatic
intercourse marked the call of the
three envoys. Ambassador Dagama
of Brazil, minister Naon of Argen-
tina and Minister Suarez of Chile,
attired in the conventional frock
coat and silk hat of formal dress,
and accompanied by Secretary of
State Bryan went to the White House
in an automobile.

In the blue room, the President
with his military and naval aides at-
tired in full dress uniform, greeted
the envoys. He wished them suc-
cess on their mission of peace and
expressed the hope that when they
return to Washington they will have
found the solution of the Mexican
problem, which has confronted the
United States government for three
years. Though it is customary for
ambassadors and ministers on leav-
ing the United States for long ab-
sence to say good bys, to the Presi-
dent, there was more than the usual
farewell in the little scene in the
blue room to lay. Upon three medi-
ators devolves the real burden of
the conference at Niagara Falls.
From them must come the plan
which all parties will take under
consideration. The American rep-
resentatives have no plenary powers
but are entirely unofficial in their
character.

They bear no credentials in a
formal sense but merely an auto-
graph letter from the President in-
structing them to act as a channel
of communication between the
Washington government and the
three south American envoys who
have tendered their good offices of
the settlement of the Mexican situa-
tion. Frederick W. Lehmann,
former solicitor general of the United
States and Justice Lamar of the
Supreme Court of the United States
who comprise the American repre-
sentatives and H. Percival, their
secretary were at the state depart-

ment today familiarizing themselves
generally with the work ahead of
them. They were expected to have
a final conference with the president
and Secretary Bryan today as the
American delegation leaves early to-
morrow for a daylight ride to Ni-
agar Falls, N. Y. Their quarters
will be on the American side of the
line to facilitate communication
with Washington by telephone and
telegraph.

NO DEVELOPMENTS BROUGHT OUT AT CABINET MEETING

(ASSOCIATED PRESS TELEGRAM)
Washington, May 15.—The ship-
ment of arms into Tampico from for-
eign ports other than the United
States was not discussed at the cabinet
meeting today but one of the cabinet
officers in close touch with Mexican
affairs said he did not believe the
American government would attempt
to interfere with foreign shipments
in any way.

The cabinet meeting brought out
no vital developments, the discussion
about policy being brief and general.
Secretary Bryan said he had no
further word about J. R. Gillman,
the mission American vice consul and
believed he was still in Saitilo.

NO POLITICAL MEANING IN POSTPONEMENT

Washington, May 15.—In view of
the circulation of sensational reports
that the postponement of the Niagara
Falls mediation conference was due to
a serious hitch, the Spanish ambas-
sador, Mr. Riano, who is acting for
Mexico in the United States, author-
ized the statement that there was no
political significance whatever in the
delay which was due solely to the late
arrival of the Mexican delegates.

BOTH LEGS MANGLED BY TRAIN

Fred Martin, aged 25, living in South
Fifth street, lost both legs and part of
his right hand when he fell under the
wheels of a freight train late Friday
afternoon. He was on the track be-
tween Fourth and Fifth streets. He
was fatally injured.
Bazler & Bradley's ambulance took
him to the City Hospital where Dr.
H. J. Davis attended him.
At 3:30 o'clock Martin was still liv-
ing and surgeons were operating up-
on him.

Decision of Utilities Commission Favors City In Long Rate Case War

(ASSOCIATED PRESS TELEGRAM)
Columbus, May 15.—The public
utilities commission of Ohio today
gave its decision in the Bucyrus
Light and Power company case which
has been pending for months, and in
which complaint was made by the
company that the city had passed an
ordinance fixing the rate that the
company should charge which was
confiscatory. The commission ap-
praised the value of the company's
property, and its finding is more

favorable to the city than to the com-
pany. The commission puts the val-
uation at \$95,000 and orders that the
rate be based on this. Public util-
ities throughout the state have been
watching the case.

The commission today gave its ap-
proval to the application of the
Cleveland Telephone company to in-
crease \$4,000,000 five per cent. two year
notes. The issue is to be used to re-
fund present outstanding obligations
and to make betterments and improve-
ments.

City Has No Valid Title To "Old Grave Yard" Site, Opinion of Appellate Court

Declaring that the city had no
right title or interest in the old cem-
etry site lying between Main and
Church streets and immediately west
of Sixth street, the court of appeals
Friday morning handed down a de-
cision directing the city to restore the
tract to its former condition and re-
linquish possession of it to the heirs,
defendants in the suit. The city will
appeal the case to the supreme court.

The decision is a victory for the
defendant heirs, about fifty in num-
ber, residing in various parts of the
United States, one of whom, Mrs.
Sarah S. Crane, 90 years old, resides
near Dayton, O.

The value of the property is vari-
ously estimated at \$35,000 to \$50,000.
It contains more than four acres of
ground and is the largest open tract
of land anywhere near the center of
the city. The litigation has been
pending in the local courts since 1902,
when the city instituted suit to quiet
the title to the property.

The details of the matter have been
exploited from time to time in the
Advocate. Briefly it may be stated
that the tract was given to the city
sometime prior to 1817, for use as a
cemetery. It was abandoned nearly
half a century ago, and most of the
bodies removed to other resting
places.

city or town of Newark has no right,
title or interest in these premises, in
either case and that the petitions
should be and they are dismissed at
the costs of the plaintiff.

"It is therefore ordered by the
court, that said plaintiff remove all of
said pipes, poles, electric wires, ce-
ment walks and the fountain from
said premises and restore the same
to the same condition that they were
* * * and that the same be done
within six months from the date
hereof."

About eight years ago, it was pro-
posed to construct a city hospital on
the site and a bond issue was author-
ized but the filing of the suit stop-
ped the proceedings and the city put
down cement walks, constructed a
fountain, installed electric lights and
made the tract into a city park.

The decision of the common pleas
court which is reversed by the new
decision, was to the effect that the
fact that walks and fountain had been
installed did not indicate that the
tract was no longer used as cemetery
purposes. A single monument still re-
mains on the tract.

The decision was the unanimous
opinion of Judges R. M. Voorhees, R.
M. Shields and L. K. Powell.
Attorneys Owen Nash of this city,
and Messrs. Craighead and Van Pelt
of Dayton, represented the defend-
ant heirs in the suit. Mr. Craighead
was one of the interested heirs.

City Solicitor Ralph Norpell and
Messrs. J. R. Fitzgibbon, C. W. Mont-
gomery and F. M. Black represented
the city.

WHAT REBELS
WILL DO WITH
TAMPICO NOWAnd Plans for Their Campaign
Against Saltillo Is of Paramount Interest.

WASHINGTON, May 15. — Immediate interest in the Mexican situation centered in the constitutionalists administration of their new prize—the port of Tampico—and plans for their campaign against Saltillo and San Luis Potosi.

Reports to the navy department early today from Rear Admiral Mayo stated that General Gonzales, the Carranza commander at Tampico, has assured United States Consul Miller that complete protection would be given to American and other foreign property about the seaport including the immense oil interests there.

News that the federal mission was speeding northward today from Key West relieved all anxiety over the possibility that the Mexican delegates would not reach Niagara Falls in time for the beginning of the conference. First intimations of the scope of their authority were relieved in a statement by Senor Rodriguez spokesman for the party, who declared:

"We have full power to act; we carry no formula, and we shall decide according to our conscience, always bearing in mind the national honor."

That applied, however, to issues between the Huerta government and the United States. The Mexican delegates, Senor Rodriguez said, would deal only with external issues of the situation because of the attitude of Carranza that an attempt to compose internal affairs in Mexico would be beyond the bounds of diplomatic activity.

News that Huerta's gunboat off Tampico had put out to sea temporarily relieved the possibility of a complex situation growing out of a blockade of the port. While officials here decline to discuss what might result from an attempt by Huerta to halt supplies and ammunition for the constitutionalists outside Tampico, yet naval experts agreed that if the federal commanders were able to establish a blockade, it would have to be respected by foreign shipping.

Details of the final assault on Tampico after months of siege, which came through slowly today, indicated that reinforcements of artillery enabled General Gonzales to drive the federal gunboats from their positions, then, under cover of firing from the large guns, the constitutionalists charged into the town, the conflict ending with desperate fighting in the plaza. Lightning interruption of wireless communication between Rear Admiral Mayo at Tampico and the fleet at Vera Cruz delayed detailed reports of the end of the siege. News that reached northern points by an overland wire stated General Gonzales mentioned a "bloody engagement."

The fate of the federalists, who fled from Tampico was in doubt today. In some quarters belief was expressed that they would be cut to pieces by intercepting constitutionalists long before they could hope to reach their own lines south of San Luis Potosi. Fears that they might attempt reprisals by setting fire to the huge tanks of oil inland from the port were not realized. Evidently they were moving hurriedly in the hope of reaching a haven from pursuit.

Order rapidly is being restored in Tampico, reports today indicate, and Rear Admiral Mayo, with the Des Moines and Dolphin, has resumed a position in the river in front of the town. It was known that practically all foreigners had left Tampico before its evacuation by the federalists, and no reports of damage to foreign property in the final fighting had been received. With practically all northern Mexico in control of the constitutionalists, plans for their next movement excited much interest today. Villa was preparing to lead the assault against Saltillo. His army had been provisioned for a thirty days campaign and it was said that apparently there were plenty of arms and ammunition for the siege. Constitutional strategists were believed to have figured that if they took Saltillo, the federal garrison there would concentrate at San Luis Potosi, leaving that city as one of the points where Huerta would make a final stand against the constitutionalist campaign aimed at Mexico City.

Reports that a constitutionalist official had stated foreign owned mines in the Parral district must be under operation in 15 days or they would be seized and worked "for the benefit of the Mexican people" caused some apprehension in El Paso. Foreign capital in the Parral district is estimated at from \$30,000,000 to \$50,000,000 and the mine owners who are unwilling to return under present conditions, were preparing to protest to the state department if reports of the order were verified.

Stumbling blocks in the way of the Niagara Falls conference that had threatened aggravating developments early in the week appeared to be disappearing today. The Lobos Island incident was regarded as closed by the assertion of the state department that there had been no seizure of the island and that the Mexicans could occupy it whenever they were prepared to maintain the lighthouse. Disposition of the South Americans held at Vera Cruz for "sniping" during the American occupation, still was held in abeyance, pending Secretary Bryan's investigation.

Reports, however, still were awaited concerning John R. Silliman, the missing American vice consul at Saltillo, and Samuel Parks, the orderly reported to have been executed by Huerta's men near Vera Cruz, after he had left General Funston's lines.

The American delegates to the Niagara Falls conference conferred with the President and Secretary Bryan today in preparing for their departure tomorrow.

LACK OF FRESH AIR

Causes Run-down Condition. How to Keep Strong.

Statistics prove that the death rate is very much greater in the winter months than in summer, and that the lack of fresh air is largely responsible for this condition.

If the system becomes run-down, blood thin and watery, circulation poor, no appetite, don't dose with drugs, but take our delicious cod liver and iron tonic Vinol, not a patent medicine, as everything in it is named on every package and if it does not give you a hearty appetite, enrich the blood and create strength, we will return your money; that shows our faith in Vinol.

A case has just come to our attention from Knoxville, Tenn. Miss Carrie King says: "For three years I was all run-down, weak, had no appetite and after all that time I am glad to say Vinol has brought back my health and strength."

Try a bottle of Vinol, on our guarantee. Frank D. Hall, Druggist, Newark, O.

P. S.—For Eczema of Scalp try our Saxo Salve. We guarantee it.

WILL HOLD A TRACK MEET ON WHITE FIELD

Three schools, Zanesville's High School, Doane Academy and the local high school will hold a track meet on the White Athletic Field Saturday afternoon. This will be the biggest event of the season on the White Field as all of the schools have very strong teams. Coach Fred Stimson is confident of victory over the two opposing teams.

Since the last meet the local lads have been improving wonderfully, and taking into consideration that this is the first year that Newark High has had a track team, the showing is very creditable.

This year the high school is offering better athletic attractions to the public than ever before and every year for the past several years the standard of athletics in the high school has been improving. Good accommodations are offered to the public as a bleachers has been erected from which all of the events can be witnessed. All of the events will be started and finished in front of the bleachers.

The meet will start at 2 o'clock. The boys entered in the events by the local school are: 100 Yard Dash, Warner and Rhodes; Hammer Throw, Young and Rawlings; 220 Yard Hurdles, Jones and Orr; 330 Yard Dash, Young and Mercer; 220 Yard Dash, Warner and Rhodes; Broad Jump, Orr and Brown; High Jump, Stephens and Sims; 120 Yard Hurdles, Jones and Orr; 440 Yard Dash, Warner and Rhodes; Pole Vault, Meyer and Rawlings; 1 Mile Run, Young and Wall; Discus Throw, Ingler and Needham; Shot Put, Dickerson and Mazey; Relay Race, Cherry and Rhodes.

ADD \$5,392,000 TO PERSONAL PROPERTY IN FRANKLIN COUNTY

Columbus, May 15.—District Assessors Pfeiffer and Ellis and their deputy assessors have added \$5,392,933 of personal property to the Franklin county duplicate, according to a report made public yesterday by the state tax commission.

Of this amount, \$2,610,542 is from 8173 persons whose names did not appear on the tax lists last year, and \$2,782,401 from 14,124 persons who have voluntarily increased their returns.

The deputies have completed listing property in the townships and villages.

Who Pays the Taxes Under the Warnes Law?

A host of standpat Republican candidates for office, boasting of their concern for the welfare of the farmers and small home owners, have been telling the latter that the Warnes law would increase their taxes.

But figures from Akron show that the wealthy people will contribute larger sums in taxes under the Warnes act. In fact, three wealthy families in that city will in 1914 pay one-twelfth of all the personal property taxes that will go into the county treasury in that city of nearly 100,000 people. The personal prop-

erty holdings of the three families are given at \$750,000, as against a valuation of \$9,000,000 for the entire city.

These three families are Mrs. S. J. Ritchie and three children, who returned \$380,000 in personal property; Attorney George C. Allen, who gave in \$104,000 and Mrs. Mary Perkins, her daughter and son-in-law, who returned \$262,000.

Any tax law which will make three wealthy families pay one-twelfth of the taxes in a city of 100,000 is not such a bad measure from the standpoint of the people of moderate means.

Caring For the Wounded

While the fight of the standpat Republican organization against the workmen's compensation act is carried forth vigorously, state officials administering the law are carrying forth just as strenuously the great humane movement provided for in the measure.

A total of 32,402 claims had been filed with the industrial commission at the close of April this year. Of these there have been final awards in 25,126 and partial awards in 1,310 others that were not closed, as other claims are liable because of the injuries. During April the commission disposed of 3,573 cases. The total number of death claims is 121. There were 7,276 cases pending May 1, when business for the new month was started.

There have been three deaths and 114 injuries to public employees, and all these claims are pending. There have been sixty-one claims filed against employers who have not paid into the state fund, and of these forty-five are pending.

On Second Thought

Next to that of Ex-Congressman, Ex-Governor is the shortest obituary.

Buck Kilby says the old saying, "life is short," is misleading. Buck says life is plenty long enough for a married man.

The unusual feature in connection with the recent marriage of Billy Burke, the actress, is that Miss Burke had not previously indulged in matrimony.

There is at least this to say for the self-made man: He seldom attempts to saddle the blame on anyone else.

When a woman gazes fixedly at her husband it doesn't necessarily mean that she is admiring either his manly form or his noble features. The chances are that she is looking him over in an effort to discover grease spots on his clothing.

Every boy with younger brothers knows why Cain killed Abel. He did it because Abel insisted on "tagging" after him.

Probably no woman ever married a man for express purpose of reforming him. When a woman ties herself to a skate she does it for the reason that she is in love with the skate.

Nothing that musical comedy now is being given in tabloid form. Eph Wiley says musical comedy will never be entirely satisfactory to him until it can be administered hypodermically.

Uncle Walt

Misfits

So many men now wield the pen, who should be herding cattle! So many shirks who should be clerks now make the welkin rattles! So many skates are filling dates as Hamlet or Ortelio, who ought to rush and get a brush and paint a cowshed yellow! I go to church and take my perch where I can hear the speaking, and then the priest knocks galley east my comfort, with his squeaking. I concerts seek, say twice a week, to hear some music charming; then tuneless jays a discord raise — they should be busy farming. And there are dames who jar our frames, with their "dramatic readings;" we wish they'd quit and sew and knit, but they resist our pleadings. Of 'leven men it seems that ten to wrong trades are committed; we seldom find a man whose grind is that for which he's fitted. Thus knights and peers are auctioneers and blacksmiths are musicians, and gifted bards are spading yards and grocers are physicians. Yet let's be gay, the liveliest day, and dance and sing and frolic; it will not help to kick or yelp, or have eight kinds of colic.

Rub Vick's "Vap-O-Rub" Croup and Pneumonia Salve well over the throat and chest for a few minutes and then cover with a warm flannel cloth. Leave the covering loose around the neck so that the vapors inhaled may loosen the choking phlegm and open the air passages. Usually one treatment relieves in fifteen minutes. One application at bedtime will prevent a night attack. Vick's will be found better than internal medicines for all inflammations of the air passages from head colds and catarrh down to bronchitis and incipient pneumonia. Three sizes—25c, 50c and \$1.00.

Jim Crogan Richard Neill
Richard Harry Beaumont
Blanche Wright Marjorie Ellisson
Mary Burke Nellie Milford
Indian servant Harry Lines

THE little Alaskan mining settlement, hidden away for the greater part of the year in its snows, was not alive to the fine points of a man's past. The majority of the dwellers therein had pasts that did not bear too much elaboration, so no one was particular about delving into his neighbor's.

Thus Jim Crogan shared in the life of the community simply living the measure of his manhood as it was, unhampered by any previous influences. When the new school teacher came to town she was quite the pet of the place, and between her school sessions she found time to take part in the winter sports which the country offered. On hunting and snow-shoeing trips she and Crogan were often companions, for she seemed to enjoy his company, and the whole village soon recognized his admiration for her. Mary Burke was a quiet, restrained young woman, however, and no one ever knew quite what she was thinking.

At Christmas time she held a party in her cabin, and after every one had gone—Crogan last of all—she found on the floor a little case that had dropped from his coat pocket. Examining the photograph in it, she put it away in a hiding place, and asked if she had minutes later returned and asked if she had found a card case, denied it flatly.

The next morning Mary Burke called on the deputy sheriff, told him she belonged to the United States secret service, and asked him to send a force to her cabin that evening at 8 o'clock, when she would turn over to them the case and the photograph of a government fund, whom they knew as Jim Crogan.

By appointment that evening Crogan came to Mary's house. He took the conversation into his own hands, and began it by telling her that he loved her. He then said he must tell her of his life before, and he unfolded a story of scorned love and self-sacrificing shielding of a younger brother that made Mary's heart beat madly. In her heart there had been a love for the brother, Crogan loved her, and then, when that brother, to meet his wife's extravagances, appropriated government money, took the blame upon himself and ran away from friends and civilization that they might get on their feet and live happily after the experience. And along with his voice and the tramping, tramping in his ears, there throbbed through her whole being the knowledge that she loved him.

When she could make him stop talking she told him of her duplicity and she begged him to escape, but he refused. Just then footsteps were heard on the steps and loud knocking on the heavy door.

"O Jim, if you love me, hide. I'll tell them," she whispered wildly. "No, Mary; that can't be done," he answered calmly, moving forward and unbarring the door. As the men filed in he extended his hand for the iron bracelet, while the girl covered back against the wall sob-shaken. But the men laughed, and the sheriff thrust into Crogan's hand a newspaper folded at the item chronicling the death of his brother, who had made a full confession of his theft, clearing James, on his death bed.

But Mary Burke's work in the secret service was ended. She tracked no more lawbreakers to the land's end. She lived in the land's end

RICHARD NEILL

Richard Renshaw Neill, born in Philadelphia, of the aristocracy, was the first of his family to enter the theatrical profession. In his seventeenth year he joined Holland's stock company, where he was associated with many players who are remembered as stars. Besides this professional training, Mr. Neill was always an enthusiastic athlete, expert in fencing, swimming, riding, and running, so he was splendidly equipped for the varied demands made upon an actor by the "movies," where the ability to "move" effectively is an essential requirement. Since his connection with the Edison company he has pulled off many daring stunts, at much personal risk, in order to give that realism to the pictures which makes observers thrill.

with James Thurston, and they forgot all about parts, even those made in Alaska.

"Temper vs. Temper."

This masculine adaptation of the "saucer for the goose" adage is cleverly played and full of fun. The spoiled, young woman who was in the habit of throwing things when her will was crossed was wooed and won by a young man, who thought he could conquer her temper easily.

As soon as they arrived at their new house, however, she used him as a target—and much practice had made her an excellent shot—concluding the session by locking him out of her room. Perplexed, he sought a specialist friend who advised him to treat his wife just as she treated him.

He grinned over the prescription and complied to the servants. When next Mrs. Newwired flung things at her husband he flung them back, struck an attitude, tore his hair, brandished his arms and raged so wildly that she ran off to mother and brought her home with her.

They sent for a doctor—the same one who had prescribed the treatment, and he ordered for the husband "care and loving-kindness." The two treatments supplemented each other beautifully, and the wife-be-bee no longer filed the air in that house.

"The Inventor's Wife."

This is another one of the large book of stories about one man and two women. The man is an inventor, absorbed in his work, to the exclusion of the consideration of his wife or his health. A rival electrical firm plans to secure the ideas of the invention on which he is working by sending a woman spy into the company's employ. The woman craves the plan, but she finds she likes the man and decides that if she can win his love she will not give the invention away to her firm. The man himself is quite indifferent to her blandishments, but his wife, naturally becoming jealous, his brother, who is visiting at his home, is also enraged at the behavior of the assistant. The affair culminates in the laboratory, where the spy goes secretly at night to finish her notes, and where the wife follows with a pistol. The spy dies and there is much searching and heart-rending suspicion, until it is stated that the woman was killed by an electrical shock, received while manipulating some of the wires. Then the inventor and his wife have their confidence restored and begin to live happily again.

"In High Life."

Wood B. Wood's futile sentimental experiences lead him this time into a calamitous effort to appear to be what he was not, with results highly uncomfortable to himself and his ally, Darby Jenks. At the latter's suggestion, Wood B. pretended he was a count somebody and went to call on Miss Amanda Muggs, heiress to a large fortune which her father had made by hand for her, beginning years back in an iron foundry.

But Wood B. wasn't used to the luxury in which the Muggses lived; he didn't know what to do with a butler, nor did he understand the high ceremonial of tea drinking standing up; his feet were most unmanageable, upsetting furniture, and crowning awkwardness of all, getting mixed up with Amanda's aunt's draped skirt, relieving it of all surplus drapery. Even with father he was not a success, for he assumed a proprietary interest in the tray of drinks unwarranted in a guest, and he siphoned the seltzer the wrong way, drenching the paternal person.

This was the climaxing insult, and Father Muggs' wrath broke forth so unreasonably that he pursued his caller through the house with a long sword. The terrified Wood B. sought refuge in the dumb waiter and kept up a merry game of peek-a-boo until father cut the ropes, when he dashed out of the basement scuttled off to safety in his unpaid for hotel room.

"From the Flames."

In this thoroughly good story of theft and recovery an elderly woman plays the rôle of heroine. The rich man disinherits his disappointed son in favor of his orphan niece, but a dishonest lawyer's clerk, acting for the son, steals the second will so that on the old man's death the original one stands. The girl goes away from her old home, but the servants, who love her, are sure of some underhanded trick, and they remain to try to discover it. The old housekeeper hides in the drawing room when the clerk comes to exchange the will for the sham of money the heir is to pay him, and when the two fall into a disagreement, the old lady rushes out, snatches the will from them and takes it directly to the lawyer's, reaching the door safely just about two minutes before her pursuers. The villain, in order to obtain the will, try to rob the lawyer's safe, and failing, set fire to the house, but the will is rescued and the girl is restored to the rights she deserves. It is a picture brimful of good action, with well held suspense in the unrollment of the plot.

America Can Aid Balkan Peace by Strengthening Her Present Establishments There

By ANDREW S. TSANOFF, Amherst Graduate and Publisher of Newspaper in Bulgaria

BULGARIA has no intention of waging war at present. She is determined to strengthen herself internally and externally. AMERICA'S WORK FOR THE NEAR EAST THROUGH MISSIONS, SCHOOLS AND HOSPITALS HAS BEEN OF IMMENSE FORCE. BULGARIA, IN PARTICULAR, OWES THIS COUNTRY A DEBT OF PROFOUND GRATITUDE. DUTY BIDS ME ACKNOWLEDGE IT. AS A SINCERE FRIEND OF ALL THE BALKAN RACES, AMERICA CAN ONLY AID THE CAUSE OF GENERAL PEACE BY STRENGTHENING HER PRESENT ESTABLISHMENTS THERE.

Our country has a great future. We are doing our best to improve methods and implements of agriculture. We have nursery gardens and trees and plants. MILLIONS OF AMERICAN VINES, resisting the phylloxera, have been planted.

The C. of T. G. club met at the home of Miss Lillian Ruff. After a few hours of sewing a dainty luncheon was served.

The members are: Miss Lillian Ruff, Miss Catherine Slavick, Miss Lillian Brown, Miss Mary Verb, Miss Esther Nichol, Miss Viola Stepler. The guest was Miss Teckla Ruff.

The club will meet next Saturday at the home of Miss Catherine Slavick.

Mrs. Mary De France was hostess to the members of her Sewing club on Tuesday afternoon at her home in Hancock street. A contest was held followed by a dainty luncheon, the table being prettily arranged with pink and white carnations. On May 19, Mrs. Wm. Shamp will entertain the club.

The young men's Sunday school class, Miss Banton, teacher, of Woodside Presbyterian church, gave a social Thursday evening at the "Gym." The North End Male quartette furnished the music and entertained delightfully. Ice cream and cake were served. Quite a large crowd attended. The gymnasium will be open Tuesday and Thursday evenings. It is equipped with swinging rings, horizontal and parallel bars, pulleys, striking bag, dumbbells, wands, gloves, hammer shot, apparatus for the high jump, etc. Free to boys and young men of Woodside.

Girls, members of the office force of the Wehrle company, surprised Miss Irene Simpson at her home, 183 West Main street with a shower. Miss Simpson also received a chest of silver. A dainty luncheon was served.

The Mitchell class of the First M. E. church Sunday school, held the monthly meeting at the home of Mr. and Mrs. Melvin Davis in North Fourth street on Thursday evening. The hours were informally spent and a dainty luncheon was served to about forty guests.

MCINTIRE—BATCH.

The wedding of Miss Mary Batch, daughter of Mr. and Mrs. J. H. Batch of Hoover street and Mr. William M. McIntire was solemnized at the Central Church of Christ on Thursday evening at 7:30 o'clock. Invitations had been issued to a number of friends for the church and the service was read by Rev. W. D. Ward, pastor. Following the ceremony an informal reception was held at their new home, 14 Eighth street. The groom is the son of Mr. and Mrs. D. M. McIntire of North Eleventh street and he is employed as a molder.

Miss Olive Howard of Clinton street went to Union Friday afternoon to witness the Fowling play of the Union high school. Miss Howard will be the guest of Miss Florence Ottman.

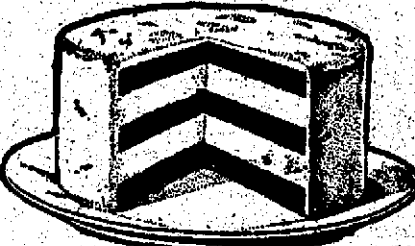

Dog wood blossoms and other wild flowers with a color scheme of yellow and white were the decorations at the annual dinner party given to the Board of Education by the domestic science class of the High school Thursday evening. Ever since the institution of the domestic science class in the High school it has been the custom for the girls to exhibit their progress to the members of the board by means of an annual banquet.

Professors Barnes and Hawkins were guests also of the young women, it being Prof. Hawkins' birthday anniversary. They deserve much commendation for their progress made in the culinary art. The banquet was under the supervision of the domestic science teacher, Miss Bilman.

Much merriment was created at the Y. W. C. A. on Thursday evening when a mock wedding was held. The large alcove at the front of the building on the second floor was converted to floral bower with the use of dogwood and other spring flowers and the bride and groom took their positions to the strains of the wedding march played by Miss Junia Sells. The bride was Miss Jennie Reynard, who wore a lace gown (converted to such from the curtain draperies). The groom was Miss Florence Bloom, while the bride was given away by her father, Miss Della Prior. The remainder of the bridal party were the mother, Mrs. Pearce; maid of honor, Martha Stuber; bridesmaids, Rhoda Martin and Norma Moore; ring bearer, Mary Stickle; flower girl, Mary Hagen; usher, Lottie Johns; minister, Miss Ruth Crosby; best man, Mary Walker; grandmother, Charlotte Stigman.

At the conclusion of the ceremony a wedding dinner was served to

Nothing Makes Cake So Good As Snow-Mellow

You will be only too glad to bake cake at home, once you realize how much more delicious it is than any cake you ever bought. Beat up a tablespoonful of Snow-Mellow to make a filling for a big two-layer cake, or one and one-half spoonfuls if you want a three-layer cake, as shown above. Let the layers cool, then spread them thick with Snow-Mellow. Set aside a few moments to stiffen. Then build up the layers and spread icing around top and sides. This is one of 28 recipes, shown in booklet furnished by your grocer, with our special beater—both free with every box of Snow-Mellow. Every box makes desserts for seven meals, for four to six people. Write Snow-Mellow and try it today. If your grocer hasn't it in stock, you'll send us his name and 25c. We will mail Snow-Mellow, with recipe book and beater, FREE. Frank & Houten, Sales Agts., So. Wabash Ave., Chicago.

thirty-eight wedding guests in the dining room where the decorations were in yellow and white. A huge wedding bed centered the room and the bride couple received a number of gifts. About thirty guests were entertained by the association during the evening.

LESSON XII—PART I.

Exercises for Physical Culture.

The most convenient time for doing exercises is in the morning, before dressing or just before retiring. This does away with the necessity of disrobing during the day. It is obvious that the best results cannot be obtained while wearing garments or any form of heavy clothing.

The exercises I am giving first are for all women, whether stout or undeveloped. They limber the body, bring into play unused muscles, increase breathing capacity, tone up the nerves and improve the general health of the body. They will also give grace and elasticity of movement.

This latter point is particularly important just now when the new fashion in gowning call forth a corresponding change in movement, walk and attitude. Remember that it is only the woman whose body is in correct poise that can stoop gracefully and that attitudinizing, graceful and attractive when the muscles are in perfect training, becomes stiff and awkward when the body is not responsive.

Only Ten Minutes.

These exercises can be done in ten minutes, night and morning. They will tire you at first, for if you have been neglecting physical work entirely, they call into play muscles that have not been used. Do them with your mind as well as your body; get the fullest measure of good out of them, and, as you note improvement day by day, you will find them more interesting.

Begin the day with the breathing exercises given in Lesson X. Follow with Ex. A. Stretching. Stand with feet against a wall or door, chest touching; lift arms at sides to above head, palms out; rise on toes and stretch arms higher and higher until higher; drop arms at sides and heels on floor. Repeat this not less than ten times.

Ex. B. To Limber and Strengthen Shoulders. Munchies—Lie flat on floor, face down, feet together and arms at side. Raise head, chest and entire torso as high as possible, turning head first over right shoulder and then over left, slowly and carefully. Stretch the working of the muscles across the back. Repeat ten times to right, ten times to left.

LESSON XII—PART I.

Exercises for Physical Culture.

The most convenient time for doing exercises is in the morning, before dressing or just before retiring. This does away with the necessity of disrobing during the day. It is obvious that the best results cannot be obtained while wearing garments or any form of heavy clothing.

The exercises I am giving first are for all women, whether stout or undeveloped. They limber the body, bring into play unused muscles, increase breathing capacity, tone up the nerves and improve the general health of the body. They will also give grace and elasticity of movement.

This latter point is particularly important just now when the new fashion in gowning call forth a corresponding change in movement, walk and attitude. Remember that it is only the woman whose body is in correct poise that can stoop gracefully and that attitudinizing, graceful and attractive when the muscles are in perfect training, becomes stiff and awkward when the body is not responsive.

Only Ten Minutes.

These exercises can be done in ten minutes, night and morning. They will tire you at first, for if you have been neglecting physical work entirely, they call into play muscles that have not been used. Do them with your mind as well as your body; get the fullest measure of good out of them, and, as you note improvement day by day, you will find them more interesting.

Begin the day with the breathing exercises given in Lesson X. Follow with Ex. A. Stretching. Stand with feet against a wall or door, chest touching; lift arms at sides to above head, palms out; rise on toes and stretch arms higher and higher until higher; drop arms at sides and heels on floor. Repeat this not less than ten times.

Ex. B. To Limber and Strengthen Shoulders. Munchies—Lie flat on floor, face down, feet together and arms at side. Raise head, chest and entire torso as high as possible, turning head first over right shoulder and then over left, slowly and carefully. Stretch the working of the muscles across the back. Repeat ten times to right, ten times to left.

Who Pays the Taxes Under the Warnes Law?

A host of standpat Republican candidates for office, boasting of their concern for the welfare of the farmers and small home owners, have been telling the latter that the Warnes law would increase their taxes.

But figures from Akron show that the wealthy people will contribute larger sums in taxes under the Warnes act. In fact, three wealthy families in that city will in 1914 pay one-twelfth of all the personal property taxes that will go into the county treasury in that city of nearly 100,000 people. The personal prop-

While the fight of the standpat Republican organization against the workmen's compensation act is carried forth vigorously, state officials administering the law are carrying forth just as strenuously the great humane movement provided for in the measure.

A total of 32,402 claims had been filed with the industrial commission at the close of April this year. Of these there have been final awards in 25,126 and partial awards in 1,310 others that were not closed, as other claims are liable because of the injuries. During April the commission disposed of 3,573 cases. The total number of death claims is 121. There were 2,726 cases pending May 1, when business for the new month was started.

There have been three deaths and 114 injuries to public employees, and all these claims are pending. There have been sixty-one claims filed against employers who have not paid into the state fund, and of these forty-five are pending.

On Second Thought

Next to that of Ex-Congressman, Ex-Governor is the shortest obituary.

Buck Kilby says the old saying, "Life is short," is misleading. Buck says life is plenty long enough for a married man.

The unusual feature in connection with the recent marriage of Billy Burke, the actress, is that Miss Burke had not previously indulged in matrimony.

There is at least this to say for the self-made man: He seldom attempts to saddle the blame on anyone else.

When a woman gazes fixedly at her husband it doesn't necessarily mean that she is admiring either his manly form or his noble features. The chances are that she is looking him over in an effort to discover greasy spots on his clothing.

Every boy with younger brothers knows why Cain killed Abel. He did it because Abel insisted on "tagging" after him.

Probably no woman ever married a man for express purpose of reforming him. When a woman ties herself to a skate she does it for the reason that she is in love with the skate.

Noting that musical comedy now is being given in tabloid form, Eph Wiley says musical comedy will never be entirely satisfactory to him until it can be administered hypodermically.

Uncle Walt

Misfits

So many men now wield the pen, who should be herding cattle! So many shirks who should be clerks now make the welkin rattle! So many skates are filling dates as Hamlet or Othello, who ought to rush and get a brush and paint a cowshed yellow! I go to church and take my perch where I can hear the speaking, and then the priest knocks galley east his squeaking.

my comfort, with concerts seek, say twice a week, to hear some music charming; then tuneless jays a discord raise — there should be busy farming. And there are dames who jar our frames, with their "dramatic readings." We wish they'd quit, and sew and knit, but they resist our pleadings. Of I even seem it seems that ten to wrong trades are committed; we seldom find a man whose grind is that for which he's fitted. Thus knights and peers are auctioneers and blacksmiths are musicians, and gitted bards are spading yards and grocers are physicians. Yet let's be gay, the livelong day, and dance and sing and frolic; it will not help to kick or yelp, or have eight kinds of colic.

HOW TO TREAT CROUP EXTERNALLY

Rub Vick's "Vap-O-Rub" Croup and Pneumonia Salve well over the throat and chest for a few minutes and then cover with a warm flannel cloth. Leave the covering loose around the neck so that the vapors inhaled may loosen the choking phlegm and open the air passages. Usually one treatment relieves in fifteen minutes. One application at bedtime will prevent a night attack. Vick's will be found better than internal medicines for all inflammations of the air passages from head colds and catarrh down to bronchitis and incipient pneumonia. Three sizes—25c, 50c and \$1.00.

THE little Alaskan mining settlement, hidden away for the greater part of the year in its snows, was not alive to the joys of a man's past. The majority of the dwellers therein had tastes that did not bear too much elaboration, so no one was particular about delving into his neighbor's.

Thus Jim Cogan shared in the life of the community, simply living the measure of his manhood as it was, unhampered by any previous influences. When the new school teacher came to town she was quite the pet of the place, and between her school sessions she found time to take part in the winter sports which the country offered. On hunting and snow-shoeing trips she and Cogan were often companions, for she seemed to enjoy his company, and the whole village soon recognized his admiration for her. Mary Burke was a quiet, restrained young woman, however, and no one ever knew quite what she was thinking.

At Christmas time she held a party in her cabin, and after every one had gone—Cogan last of all—she found on the floor a little case that had dropped from his coat pocket. Examining the photograph in it, she put it away in a hiding place, and the next morning, minutes later, returned and asked if she had found a card case, denied it flatly.

The next morning Mary Burke called on the deputy sheriff, told him she belonged to the United States secret service, and asked him to send a force to her cabin that evening at 8 o'clock, when she would be over to them and Thurstons her school sessions she found time to take part in the winter sports which the country offered. On hunting and snow-shoeing trips she and Cogan were often companions, for she seemed to enjoy his company, and the whole village soon recognized his admiration for her. Mary Burke was a quiet, restrained young woman, however, and no one ever knew quite what she was thinking.

At Christmas time she held a party in her cabin, and after every one had gone—Cogan last of all—she found on the floor a little case that had dropped from his coat pocket. Examining the photograph in it, she put it away in a hiding place, and the next morning, minutes later, returned and asked if she had found a card case, denied it flatly.

When she could make him stop talking she told him of her duties, and she begged him to escape, but he refused. Just then footsteps were heard on the steps and loud knocking on the heavy door.

"O, Jim, if you love me, hide. I'll tell thee," she whispered wildly.

"No, Mary that can't be done," he answered calmly, moving forward and unbaring the door. As the men filed in he extended his hands for the iron bracelets, while the girl covered back with a wall sob-shaken.

But the men laughed, and the sheriff thrust into Cogan's hand a newspaper folded at the item chronicling the death of his brother, who had made a full confession of his theft, clearing James of his death bed.

But Mary Burke's work in the secret service was ended. She tracked no more lawbreakers to the land's end. She lived in the land's end

Richard Renshaw Neill, born in Philadelphia, of the aristocracy, was the first of his family to enter the theatrical profession. In his seventeenth year he joined Holland's stock company, where he was associated with many players who are remembered as stars. Besides this professional training, Mr. Neill was always an enthusiastic athlete, expert in fencing, swimming, riding, and running, so he was splendidly equipped for the varied demands made upon an actor by the "movies," where the ability to move effectively is an essential requirement. Since his connection with the Edison company he has pulled off many daring stunts, at much personal risk, in order to give that realism to the pictures which makes observers thrill.

with James Thurston, and they forgot all about pasts, even those made in Alaska.

'Temper vs. Temper.'

This masculine adaptation of the "saucy for the goose" adage is cleverly played and full of fun. The modest young woman who was in the habit of throwing things when her will was crossed was wooed and won by a young man, who thought he could conquer her temper easily.

As soon as they arrived at their new house, however, she used him as a target, and much practice had made her an excellent shot—concluding the session by locking him out of her room. Perplexed, he sought a specialist friend who advised him to treat his wife just as she treated him.

He grinned over the prescription and confided it to the servants. When next Mrs. Newlywed found things at her husband he flung them back, struck an attitude, tore his hair, brandished his arms and raged so wildly that she ran off to mother and brought her home with her.

They sent for a doctor—the same one who had prescribed the treatment, and he ordered for the husband "care and loving-kindness." The two treatments supplemented each other beautifully, and the bride-a-bride no longer flled the air in that home.

'The Inventor's Wife.'

This is another one of the large flock of stories about one man and two women. The man is an inventor, absorbed in his work, to the exclusion of the consideration of his wife or his health. A rival electrical firm plans to secure the ideas of the invention on which he is working by sending a woman spy into the company's employ. The woman craves the plan, but she finds she likes the man and decides that if she can win his love she will not give the invention away to her firm. The man himself is quite indifferent to her blandishments, but his wife naturally becomes jealous. His brother, who is visiting at his home, is also enraged at the behavior of the assistant. The affair culminates in the laboratory, where the spy goes secretly at night to finish her notes, and where the wife follows with pistol. The spy dies and there is much searching and heart-rending suspicion, until it is stated that the woman was killed by an electrical shock, received while manipulating some of the wires. Then the inventor and his wife have their confidence restored and begin to live happily again.

'In High Life.'

Wood B. Wedd's futile sentimental experiences lead him this time into a calamitous effort to appear to be what he was not, with results highly uncomfortable to himself and his ally, Darby Jenks. At the latter's suggestion, Wood B. pretended he was a count somebody and went to call on Miss Amanda Muggs, heiress to a large fortune which her father had made by hand for her, beginning years back in an iron-foundry.

But Wood B. wasn't used to the luxury in which the Muggses lived, he didn't know what to do with a butler, nor did he understand the high ceremonial of tea drinking standing up; his feet were most unmanageable, upsetting furniture, and, crowning awkwardness of all, getting mixed up with Amanda's aunt's draped skirt, relieving it of all surplus drapery. Even with father he was not a success, for he assumed a proprietary interest in the tray of drinks unwarranted in a guest, and he siphoned the seltzer the wrong way, drenching the paternal person.

This was the climaxing insult, and Father Muggs' wrath broke forth so unrestrainedly that he pursued his caller through the house with a long sword. The terrified Wood B. sought refuge in the dumb waiter and kept up a merry game of peek-a-boo until father cut the ropes, when he dashed out of the basement and scuttled off to safety in his unpaid for hotel room.

'From the Flames.'

In this thoroughly good story of theft and recovery an elderly woman plays the rôle of heroine. The rich man disinherits his disinherited son in favor of his orphan niece, but a dishonest lawyer's clerk, acting for the son, steals the second will so that on the old man's death the original one stands. The girl goes away from her old home, but the servants, who love her, are sure of some underhanded trick, and they remain to try to discover it. The old housekeeper hides in the drawing room when the clerk comes to exchange the will for the sum of money the heir is to pay him, and when the two fall into a disagreement, the old lady rushes out, snatches the will from them and takes it directly to the lawyer's, reaching the door safely just about two minutes before her pursuers. The villain, a miser, and falling, set fire to the house, but the will is rescued and the girl is restored to the rights she deserves. It is a picture brimful of good action, with well held suspense in the unrolling of the plot.

DOT FINDS SUMPIN' TO DO (AND GETS SUMPIN' DONE.) BY FRANK W. HOPKINS

SAYS SULPHUR DRIVES ECZEMA FROM THE SKIN

Use like cold cream to instantly stop itching and clear the skin.

Sulphur, says a renowned dermatologist, just common bold-sulphur made into a thick cream will soothe and heal the skin. When irritated and broken out with Eczema or any form of eruption. The moment it is applied all itching ceases and after two or three applications the Eczema disappears, leaving the skin clear and smooth.

He tells Eczema sufferers to get from any good pharmacy an ounce of bold-sulphur cream and apply it to the irritated parts the same as you would any cold cream.

For many years common bold-sulphur has occupied a secure position in the practice of dermatology and cutaneous affections by reason of its parasite-destroying property. It is not only parasiticide, but also antipruritic, antiseptic and remarkably healing in all irritable and inflammatory conditions of the skin. While not always effecting a permanent cure it never fails to instantly subside the angry itching and irritation and heal the Eczema right up and it is often years later before any eruption appears on the skin.

FORMER RESIDENT IS CONVICTED OF "WHITE SLAVERY"

Wheeling, W. Va., May 15.—W. A. Welch a former resident of Newark, Ohio, has just been convicted and sentenced to three years in the penitentiary for "white slavery." Welch whose home is now at McMechen, is unmarried. The jury reported after six hours deliberation, finding the defendant guilty on the third count in the indictment and not guilty on the other two. Count No. 3 provides that the defendant induced, enticed, persuaded and coerced Mary Forbes to go from Barnesville, to McMechen for immoral purposes, while the others related to furnishing transportation.

Attorneys J. B. Handlan and S. O. Boyce, counsel for the defense, made a plea for a new trial, but it was overruled. In a burst of eloquence Attorney Handlan presented the motion to set aside the verdict and grant a new trial, but the court overruled the motion. Handlan then asked that the pronouncing of sentence be suspended until the October term of court in order that they be given time to prepare for a new fight.

The court overruled this motion also, and finally sentenced the prisoner to three years in the penitentiary. In pronouncing sentence the court said: "If the evidence in this case is true, and the verdict found by the jury correct, the crime committed by this prisoner is of the vilest nature. The maximum sentence is 10 years in prison or \$10,000 fine, or both, and I would feel fully justified in imposing the full extent of the law. But in view of the fact that the law is new, and I believe that the maximum is provided for the prosecution of cases where girls are transported for commercial purposes, I will give this man three years in the penitentiary."

Counsel for the defense will endeavor to prepare a bill of exception, and present an appeal to the United States Court of Appeals at the earliest possible date, but in the meantime the prisoner must remain in jail. While in Newark Welch is said to have lived in Buena Vista street.

Thousands in attendance at the pilgrimage to the shrine of the Virgin Mary at Our Lady of Consolation church at Carey, was favored with the usual fine weather. Although even up to Wednesday night the weather remained cloudy and threatening there was not a cloud in the sky Thursday and the sun shone warm and bright.

Tens of thousands of pilgrims filled the town and attended the services at chapel and church basement. The ladies of the parish served meals for the strangers in the parish hall Thursday. Special trains and regular trains with extra cars for the pilgrims continued to arrive all day. Religious articles were sold at stands near the chapel. The visiting priests were entertained at the home of Rev. Father Fish. Masses were celebrated at 5:30, 6:30, 7:30, 8 o'clock and noon.

At 10:30 there was a solemn procession from the chapel to the new church basement, headed by the C. K. of O. and the altar boys in their vestments. At 11 o'clock solemn high mass was celebrated in the new church. For those who had to leave on early afternoon trains articles were blessed and many were received into the confraternity.

There was also the veneration of the relic of the holy cross at the shrine. In the afternoon articles were again blessed and at 3 o'clock there were vespers and benediction in the new church.

Among the visitors present was Rev. Father Vattaman of Wilmette, Ill., who laid the cornerstone at the old chapel in Carey, and who recently returned from Texas, where he installed in a church a painting of Our Lady of Consolation church. GROUNDS COMMITTEE ORDER OF REINDEER MEETS THIS EVENING

The grounds committee of the Order of Reindeer will meet tonight at 7:30 o'clock in the club rooms. Several members of the order have been in Columbus during the week where in most instances they took occasion to look over the Mack United shows. In each case the report has been enthusiastically favorable.

Buckskin Ben's Wild West is the big feature attraction, with the fine cowboy concert band. There is Captain Stalker's Deep Sea Mystery which is a marvelously instructive and educational exhibit of specimens from the deep. The International theatre offers one of the mysteries worth seeing. An aerial act of exceptional merit is among the free attractions shown on the grounds. There are a half dozen other first class paid attractions, and the usual bunch of noise, fun and revelry to make a carnival week complete.

The big Italian band will give its daily concerts on the public square, as an additional free attraction. Many concessionaires accompany the shows.

PATRICIDE WILL RECEIVE SHARE OF THE ESTATE.

Associated Press Telegram—New York, May 15.—The million dollar estate of General Hiram Duryea, who was killed on May 5 by his son, Chester Duryea, will be divided among his three children, the patricide sharing equally with his brother, Harry H. Duryea and his sister Mrs. Henry O. Anderson, according to friends of the family yesterday to whom the general is said to have made known his plans for the disposal of his property.

Mrs. Anderson is aboard the steamer La Provence due to arrive here tomorrow from Havre. The will which has been held pending her arrival probably will be filed on Monday.

CARNIVAL HAS A NUMBER OF GOOD SHOWS

In celebrating their first big gala week in Newark, the Reindeers have secured the cleanest company of entertainers' entourage, as their watchword next week will spell "success." Mack's United Shows have a coterie of attractions which are moral throughout. They carry references from some of the best known business men in Ohio. Some of the things you will see are: The Buckskin Ben's Wild West, absolutely the biggest attraction ever carried with a carnival, its acts comprising fancy glass ball shooting, bucking bronchos, rope throwing, trick riding, trained dogs, trained ponies, etc. Another attractive feature is the Deep Sea curiosities, such as the largest sponges ever on exhibition, sword fish, giant octopus, etc.; the international theatre with seven specialties by capable lady artists, featuring "Lillian" in dances, part, not in the least objectionable, but an entertainment any lady can witness. The motordrome features, one of the most reckless riders in the world. The carousel is the finest ever, as is the Ferris wheel. Not a crooked gambling device is tolerated by the management. Every concession is conducted on the highest plane. The company's famous Italian band will give a sacred concert on the court house steps on Sunday evening at 7:30 o'clock.

The carnival will be held at the Jefferson grounds, at West Main and Eleventh streets. The management takes great pains in preserving order and the ladies and children are given protection in the strictest sense of the word. The big shows will start Monday next at 7:30 p. m. Get the carnival habit next week.

Justice Scott's Court. Magistrate F. S. Scott's court was crowded Thursday afternoon during the hearing of the assault prosecution against Sina and Samuel Homan by Sam Dobos. Dobos charges that Mr. and Mrs. Homan held his hands while Mrs. Homan applied a driving whip to him, because he told her husband he had seen her out walking with another man.

Attorney J. W. Horner represented Dobos and Attorney J. F. Linga-felter appeared for the Homans. The peace proceedings against Emil Ponsart was up for hearing in the late afternoon.

FEDERALS ARE ATTACKED BY ZAPATISTAS

(Associated Press Telegram)
Vera Cruz, May 15.—Credible private advices from Mexico City report that the federalists at Toluca, 18 miles south of the capital, were attacked yesterday by the Zapatistas. No details of the fighting were received but the incident is regarded as an important development by the authorities here.

Toluca has been the scene of numerous clashes during the last few months and the engagements are usually indecisive, since the federalists never attempted to follow the retreating Zapatistas. It is not considered that the new activity there indicates any intention of a Zapata attack on the capital as the reported agreement between Zapata and Villa to move jointly against Mexico City is credited here.

The attack will serve, however, to compel provisional President Huerta to strengthen his southern line at the expense of the northern front, or perhaps of the outpost toward Vera Cruz.

Apparently the feeling is general among all foreigners that the next few days will see a tumult of revolt in the capital since a movement into the districts was planned, to occur only when the situation became critical and the adoption of a method of self protection was an absolute necessity.

Mexican newspaper men here have been listed at the capital as traitors. In a semi-official document sent from Mexico City all those who remained after the occupation are accused of selling "their pens to Fletcher, the invader and intimidation is made that the federal government will deal drastically with them when it regains control of Vera Cruz. The reply of the newspapermen was the issue last night of a new paper named the "Voice of the People," which devotes its entire first issue to the advocacy of the constitutionalists movement and denunciation of General Huerta.

DECIPHERING OF BABYLONIAN DESCRIPTIONS.

(Associated Press Telegram)
New Haven, Conn., May 15.—The Babylonian department at Yale University confirmed today several new discoveries made in deciphering some of the inscriptions of the recently acquired collections, which were found by Arabs at Larsa, a city known in the Old Testament as Ellasar, and Erech, one of the cities of Nimrod's Kingdom, mentioned in Genesis. One of the tablets proves to be an important list of kings who ruled over Larsa in the millennium, B. C. Among other results obtained from it is the fact that Rim-Aku is not a variant reading of the name known as Archoh, but that it is the name of a brother who was the last king of the Larsa dynasty. Rim-Aku is Archoh, a contemporary of Abraham and one of the four kings routed by the patriarch with some kind of "strategy" in the night? This rule preceded that of Rim-Aku, his brother.

Another important inscription, written upon terra cotta cone in the shape of a vase, with a huge head, is the Goddess Ishtar, by this King Archoh. In it the king recounts his pious deeds in temple building and city improvements for he asks in return:

"Abundance of years, a well established throne and a putting down of uprisings."

IRISH AMERICANS WILL PARTICIPATE IN THE UNVEILING

Washington, May 15.—Hundreds of patriotic Irish-Americans from all parts of the United States were pouring into Washington today to participate in the unveiling tomorrow of the statue to Commodore John Barry, by many called "the father of the American navy" in Franklin Park. The first delegation to arrive came from Boston, closely followed by delegations from other sections of the country. Many of the societies brought their own bands and they marched through the streets to the music of Irish tunes.

The first event on the program of exercises in connection with the unveiling of the statue was a pilgrimage today to Washington's tomb at Mount Vernon, Va., upon which was placed a wreath by General P. W. Meldril of Savannah, Ga.

The unveiling of the statue tomorrow is the chief event on the program. President Wilson and high officials of the government will attend and review the parade which is to follow.

COMBING WON'T RID HAIR OF DANDRUFF

The Easiest and Best Way is to Dissolve It.

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy, every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky, and soft, and look and feel a hundred times better.

If you want to preserve your hair, do by all means get rid of dandruff, for nothing destroys the hair more quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everyone notices it. You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

781 CARS OF TIRES FOR AN AUTO FACTORY

Detroit, Mich., May 15.—One million, two hundred, fifty thousand tires for this year's production of Ford cars is the estimate made by officials at the Ford factory in Highland Park, Mich.

This immense quantity will be supplied by four leading American tire companies. The tires arrive in daily shipments of sufficient quantities to keep pace with the production of the factory. Each car load contains about 400 sets of tires so that during the months of January, February, March and April, when the factory production was around eleven hundred cars daily, approximately three carloads of tires were required for each day's production.

With 400 sets of tires to a freight car it will require approximately 781 cars, or a train approximately five and one-half miles long to bring the year's tire supply to the factory.

The tires are all shipped less valve caps and fittings, the inner tubes being in the casings. Upon their arrival at the factory the tires are assembled on wheels, inflated, the fittings attached and sent down to the tire assembly on wheels is an interesting part of completed cars.

The department where tires are assembled on wheels is interesting one from a spectator's point of view. Here the big men of the factory, its Zabyssos, and its Hackenschmidts, keep their muscles in shape. This record for assembling tires on wheels was made by a Pole who weighed something near two hundred and fifty pounds. He assembled three hundred tires on wheels in a day and kept up the pace for days at a time. That is, he completely tired seventy-five cars every eight hours.

One of the visitors at the factory recently figured out that if every tire received at the factory this year travels in the course of its lifetime five thousand miles—and this is a conservative estimate of the life of a tire—the year's supply of tires will have travelled a total distance of 6,250,000,000 miles, or 250,000 times around the world before the last one is scrapped.

WHAT TO DO FOR NEURALGIA

The one great symptom of neuralgia is pain; the one great cause is lack of nutrition for the nerves, in plain language—starved nerves.

There are two things to do for any form of neuralgia. Apply heat to the affected part to soothe the pain, and feed the nerves by taking a tonic containing the elements needed by them. Heat, as afforded by hot flannel, hot water bags, etc., dulls the inflamed nerves into temporary quiet. It does not cure. Not until the nutrition of the nerves is restored will the inflammation subside.

Dr. Williams' Pink Pills furnish to the blood the needed elements and the blood conveys them to the nerves. The only way of getting food or medicine to the nerves is through the blood. Remember that.

Neuralgia is a general term. It means inflammation of a nerve. It is given different names according to the nerve affected. Sciatica is neuralgia of the sciatic nerve. Application of heat will soothe the pain in all forms of neuralgia and Dr. Williams' Pink Pills will correct the condition that caused it.

Your own druggist sells Dr. Williams' Pink Pills and the Dr. Williams' Medicine Co., Schenectady, N. Y., will send you a little book on "How to Treat Nervous Disorders" for the asking.

Better Men and More Useful Citizens Have Been Result of Campaign

It will not be many days before the Board of Trade's campaign to raise a factory fund, to be used toward increasing Newark's industrial prosperity, will be a thing of the past. In the near future the campaign will be on the last lap, reports will be submitted from the different committees and a general invoice will be taken of the results that have been attained.

It is hoped and expected that the amount raised will be of a size that will be very creditable, taking into consideration all the circumstances that surrounded the effort.

But whatever is shown as to the amount raised in dollars and cents, the executive committee has reason to be highly satisfied with the results as a whole. The men upon whom this work fell a few short months ago, faced a tremendous undertaking. There were difficulties to be surmounted, that loomed up in a shape in which they seemed to be insurmountable. Discouragements were often met, that would have smothered the ardor of men endowed with less spirit of determination, patience and persistence, added to an unselfish and supreme desire to do a work that was to be for the betterment of the entire city.

This one thought impelled them to keep at the work, and the outcome of these efforts will be given to the public at the close of the campaign for endorsement.

But some features cannot from the nature of things be impressed upon the public mind. The methods used have been known to all, and everything has been done in the open.

But the plan was new, it was comprehensive and implied hundreds of details. The general sentiment of the city was not enthusiastically in support of the idea, and the people looked askance at it because it was new.

The executive committee set to work first to educate the people about the scope and operation of the plan, by publicity. Then small committees visited every section of the city explaining the idea more fully to various classes of the citizens. The net result of all this is apparent. Prejudices have been overcome where they existed, and thus the plan meets with the intellectual approval of near-

ly every class, could not be more clearly demonstrated than by the formal indorsement given by forty organizations of men of every shade of belief upon every other subject.

Now this work need not stop at the campaign's end, but can be broadened and made more effectual as time goes on, BUT THERE IS NO DOUBT THAT THE WORK HAS BEEN A DISTINCT BENEFIT TO THE CITY AT LARGE, AND EVERY MAN WHO AIDED IN FORWARDING THE MOVEMENT HAS BECOME A BETTER MAN AND A MORE USEFUL CITIZEN.

Today's Birthday Party

Sir Edward Ray Lankester, the distinguished English zoologist and evolutionist, was born in London sixty-seven years ago today. Like that greatest of evolutionists, Charles Darwin, Sir Ray had a distinguished father and his youth was spent in an atmosphere of scholarship and scientific interest. The elder Lankester was a celebrated physician, lecturer at medical colleges, editor of the Journal of Social Science, and the author of several medical and sociological works. The centenary of the birth of Dr. Edwin Lankester was observed by English physicians last month.

Darwin's theories as to the origin of species were beginning to win the general acceptance of the scientific world, but were bitterly opposed by theologians, when Edwin Ray Lankester was a student at Downing College, Cambridge, and Christ Church, Oxford, and the young man early became a doughty defender of Darwinism. The patient research which had marked Darwin's development of his epochal theory was reflected in the first book of his disciple, "A Monograph of the Cephalopod Fishes," which was published when the author was only twenty-three years old.

Sir Ray has spent many years in a thorough study of the brains of man and his "apellike progenitors," and he has found that there is no so-called "missing link" between man and

monkey, so far as size of brain is concerned.

"Using cubic centimeters as units," said the scientist, "we find that a good average European brain is of the bulk of 1,500 units. The gorilla has a slightly larger brain than the chimpanzee or the orang. One of good medium bulk measures 500 units, or a third of that of the well developed European.

"The size of European human brains also varies within very large limits, about a third more and a third less; that is, from about 1,000 units to nearly 2,000. The skull of the fossil man from Pleistocene (possibly Pliocene) gravels in Java had a capacity of only 900 units. If we suppose that some specimens of the gorilla may have a brain a third larger than the average we get 670 units for the biggest gorilla brain, and we similarly assume that the primitive human race of Java gravel varied to the same extent—viz., by a third more or less around 900 as the normal—we find that the greatest size of the gorilla brain develops the smallest of the Javan Pithecanthropus, while the largest of that race would overlap not only the Australian but the smaller sized brains of Europeans.

"Hence, if we accept, as we must, the fact that the brain of man and the manlike apes naturally varies greatly in volume in different individuals, there is no absolute gap in regard to size between the higher races of men and the apes. The difference is bridged over by the lower races of man and the exceptional individuals as apes.

"The convolutions of the brain of the higher apes have been minutely compared with those of man's brain. The two sets of convolutions agree very closely, but are less extensive in the apes. * * * The convolutions of the brain of lower races of men have not been fully studied, but the brain of a Hottentot woman has been carefully described and illustrated, showing less complexity than is usual in European man and making a distinct approach in this respect to the apes, but still possessing in fair proportion the convolutions characteristic of the human brain."

IN ONE MINUTE! CLOGGED NOSTRILS OPEN---COLDS AND CATARRH VANISH

Stops Nasty Discharge, Clears Stuffed Head, Heals Inflamed Air Passages and You Breathe Freely. Try "Ely's Cream Balm." Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning! the catarrh, cold-in-head or catarrhal sore throat will be gone. End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heats the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately. Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold with its running nose, four mucous droppings into the throat, and raw dryness is distressing but truly needless. Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear. F. D. Hall, 10 North Side Square, Newark, Ohio.

Theaters

Vaudeville at the Orpheum.
The performances at the Orpheum Theater Thursday were well attended, and everyone was well pleased. The acts are good and the motion pictures are extremely high class. The Great Frederick is a magician par excellence. His act is one of the best that has ever appeared in Newark. All of his tricks are up-to-date. His work is very clever and rivals that of Hermann and Hellar. Howard and Graff have an act that is extremely pleasing and entertaining. Mr. Howard is the world's greatest furniture tosser. Miss Graff is a singer who has a splendid voice and a winning personality. They have one of the greatest comedy acts in vaudeville. Wayne Webster character artist and impersonator is very clever and deserves much praise. The management of the Orpheum is doing its best to give the theatergoers of Newark the best that can be had in vaudeville.

The Auditorium Theater.
High class photo plays are being shown at the Auditorium and will continue all this summer. The theater has been repaired and thoroughly cleaned. The picture booth is no longer on the lower floor and that annoyance is now done away with. New lights have been put in all over the house and every thing is in first-class condition.

The pictures that are being offered are the best in the city. The picture screen is perfect and the light is clear and without a fault. Two new projecting machines have been installed and new equipment all over the entire house. The music is the best that can be heard in any house in the country. High class photo plays are the offerings at the present.

It is with pleasure that the management of this popular play-house announces the dates on the following features:

May 16—"The Fulfillment."
May 17—"Harding's Heritage."
May 18—"The Other Half of the Note."
May 19—"Officer Jam."
May 20—"The Death Sign at High Noon."
May 21—"The Riders of Peter-sham."
May 22—"Germinal."
May 23—"The Battle of Shiloh."
May 24—"The Third Degree."

features has ever been played in Newark and on the account of public demand they are to be repeated. Every one of these features are big successes. The management of the Auditorium Theater has gone to great expense in booking these features, and it is hoped that the people of Newark take advantage of their opportunity to see first-class productions.

It is the first time that the people of Newark have been offered such a list of splendid photo-plays.

INTERSCHOLASTIC MEET OF CHICAGO UNIVERSITY JUNE 13

Chicago, May 15.—Entry blanks were sent out today to every high school and academy in the middle west and western states for the 13th annual interscholastic meet of the University of Chicago. Under the guidance of Director A. A. Stagg, this event which will be held on June 13 has come to be known as "The World's Biggest Interscholastic."

The new track and the splendid condition of the field, may be counted on to help in establishing new records. Last year's meet was notable for the time made in the dashes. Hoyt, of Greenfield, Iowa, winning the 100 yard race in 9 4-5 seconds and also the 220 yard event in 21 4-5 seconds.

An automobile parade through the Chicago parks, an illustrated talk on noted athletics, and a presentation of hits from this year's Black-Triar show are among the entertainments which will feature the stay of the high school athletics in Chicago. The men will also be given a banquet after the meet.

Nell—"Are they happily married?" Belle—"They must be. They see so little of each other, you know."

CINCI REDS ARE A SPEEDY BUNCH ON THE DIAMOND

Cincinnati, May 15.—Some ex-
citement these Cincinnati Reds are
creating in the National League
these days. Of course, no claims for
extraordinary high position are being
made for the athletes whom Manager
Herzog is piloting so skillfully
these days, but they certainly have
been surprising the natives here and
hereabouts, and the general verdict
is that Cincinnati now has some ball
team, and will have even more so
before the season advances much
farther. The features that stand
out as prominently as the hump on
a camel are the aggressive work of
the team as a whole, the speed on
the bases, the timely hitting and the
class of several of the youngsters ad-
ded to the line-up since last fall.
Of course, it's going to be some time
before a real base ball machine is
developed from the material at
hand; but there is noticeable im-
provement in the team work from
week to week, and by the middle of
the season local fans will see better
base ball played by the Reds than
has been in evidence here on the
part of the locals for years.

No more satisfactory development
has taken place among the new Reds
this season than that of Manager
Herzog at short. When Tinker was
allowed to tango to other fields last
fall, there was much wailing over
the "hole that had been made in the
infield" and the "loss of the first
real shortstop the team has had since
the palmy days of Tom Corcoran." All
that sort of comment has been
thrown into the discard for the very
simple reason that Herzog, by his
work at short has made the fans
forget Joe Tinker and recall the best
days of Tom Corcoran. There's not
an angle of the shortstop game that
Herzog doesn't play like Edwin
Booth played "Hamlet," and the
beauty of his work is that it is get-
ting better all the time. And when
it comes to handling the men under
him like human beings, why, he's
a regular "Charlie, The Good" com-
pared with those who have gone be-
fore. Verily, that Herzog boy is
some find.

The eastern teams now are among
us for the first time this season.
So far all comparisons between the
eastern and western sections of the
National League have been at long
distance. Now, with the four east-
erners invading the wild and woolly,
a real opportunity will be given to
see how they all do out. The Bos-
tons, who were picked for first divi-
sion berth, but who, to date, have
won so few games that a baby in
arms can count 'em, will be the
Reds' first opponents, spending four
days here, including Saturday. Then
on Sunday come the New York
Giants, fierce because they have not
yet struck their stride. They will be
followed by the hustling Brooklyn-
ers, under their new manager, Wilbert
Robinson, with a Sunday game on
May 24 winding up their series.
The Phillies are the last of the
quartette, lingering here for three
days, beginning on May 25. All the
eastern teams will offer new faces,
and all are assured a warm welcome,
especially in view of the recent good
work done by the Reds.

The racing game dead? Not so
you can notice it. All records for
high class attendance were broken
at the opening of the Louisville rac-
ing season at Churchill Downs last
Saturday, lovers of the sport coming
from greater distances to see the
Kentucky Derby than ever before to
see the classic event. And there
was no surprise expressed when Old
Rosebud won the big event by so
large a margin as to make it a walk-
over for him. The Louisville meet-
ing promises to be the most success-
ful ever held at Churchill Downs,
and will be followed by equally suc-
cessful meets at Douglass Park,
Louisville, and at our own Latania.

DENISON FRESHMEN WIN BIG FIELD MEET THURSDAY

Two College Records Shattered—
Beattie and Willis Lead—All
Events Closely Contested.

(Special to the Advocate).
Granville, May 15.—With weather
conditions excellent and the track in
fast shape, Denison freshmen were
aided in winning the annual inter-
class field meet Thursday afternoon.
Two college records were broken by
goody margins. Arthur Beattie of
Norwalk, O., was awarded the gold
medal which was offered to the in-
dividual acquiring the largest num-
ber of points. He accumulated 15
in the meet, taking two first, a sec-
ond and two thirds.
Fourteen points separated the
freshmen from their nearest com-
petitors, the sophomores. The final
results are as follows: Freshmen
49; sophomores 38; seniors 30;
Doane academy 11½, while the
juniors brought up the rear with a
total of 3½ to their credit.

The most remarkable performance
of the afternoon was made by
Beattie in breaking the running
high jump record of the college.
Beattie threw himself over the sus-
pended stick at a height of 5 feet,
10 3-8 inches, five inches above the
former record of the college, held by
W. C. Coe. Although he is only a
freshman, Beattie has the ability to
cope with the best high jumper in
the country. There are few inter-
collegiate field meets in which the
high jump registers above the
height mentioned above. With some
good hard coaching and training,
Beattie will have a wonderful op-
portunity to set a record in Ohio and
for the country.

Willis crossed the bar at a height
of 10 feet 4 inches, two inches above
the former performance of H. N.
PHELPS made last year. Willis is a
member of the sophomore class and
appeared to have but slight diffi-
culty in clearing the bar. In his
final effort there was a good three
inches separating his body from the
cross stick.

All of the dashes were close.
Rupp of the freshman class excelled,
but he was hard pushed by Adair.
The college record of 23.1 was
equalled in the 220 sprint. Only
two yards separated Miller and Web-
ber at the finish of the half-mile
run. In the final lap of this race
these two men seasawed back and
forth until they reached the home
stretch. Webber was in the lead by
a few feet. One hundred yards from
the tape Miller crept abreast of
him and slowly the superior stamina
of the Denison track captain began
to evince itself, as he gradually
forged ahead with his long swinging
stride. Webber attempted to over-
take him but he was too far spent,
lacking the necessary stamina. Mil-
ler breasted the cord two yards in
the lead of the sturdy freshman run-
ner.

Exhibitions in the weight events
were nothing extraordinary. Many
believed that Black would break the
college record in the shot put, judg-
ing by the way he has been showing
up in practice, but he was not up
to his championship form and only
made a fair toss of the heavy
sphere.

Society

The C. of I. G. club met at the home of Miss Lillian Ruff. After a few hours of sewing a dainty luncheon was served.

The members are: Miss Lillian Ruff, Miss Catherine Slavick, Miss Lillian Brown, Miss Mary Verb, Miss Esther Nicholson, Miss Viola Stepler. The guest was Miss Teckla Ruff.

The club will meet next Saturday at the home of Miss Catherine Slavick.

Mrs. Mary De France was hostess to the members of her Sewing club on Tuesday afternoon at her home in Hancock street. A contest was held followed by a dainty luncheon, the table being prettily arranged with pink and white carnations. On May 19, Mrs. Wm. Shamp will entertain the club.

The young men's Sunday school class, Miss Banton, teacher, of Woodside Presbyterian church, gave a social Thursday evening at the "Gym." The North End Male quartette furnished the music and entertained delightfully. Ice cream and cake were served. Quite a large crowd attended. The gymnasium will be open Tuesday and Thursday evenings. It is equipped with swinging rings, horizontal and parallel bars, pulleys striking bag, dumbbells, wands, gloves, hammer, shot, apparatus for the high jump, &c. Free to boys and young men of Woodside.

Girls, members of the office force of the Wehrle company surprised Miss Irene Simpson at her home, 132 West Main street, with a shower. Miss Simpson also received a chest of silver. A dainty luncheon was served.

The Mitchell class of the First M. E. church Sunday school, held the monthly meeting at the home of Mr. and Mrs. Melvin Davis in North Fourth street on Thursday evening. The hours were informally spent and a dainty luncheon was served to about forty guests.

MCINTIRE—BATCH.
The wedding of Miss Mary Batch, daughter of Mr. and Mrs. J. H. Batch of Hoover street, and Mr. William M. McIntire was solemnized at the Central Church of Christ on Thursday evening at 7:30 o'clock. Invitations had been issued, to a number of friends for the church and the service was read by Rev. W. D. Ward, pastor. Following the ceremony an informal reception was held at their new home, 14 Eighth street. The groom is the son of Mr. and Mrs. D. M. McIntire of North Eleventh street and he is employed as a molder.

Miss Olive Howard of Clinton street went to Utica Friday afternoon to witness the Senior play of the Utica high school. Miss Howard will be the guest of Miss Florence Ottman.

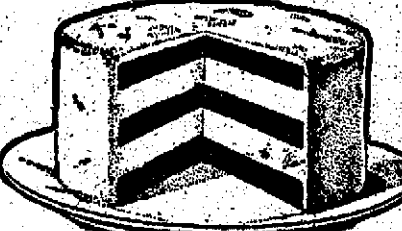

Dog wood blossoms and other wild flowers with a color scheme of yellow and white were the decorations at the annual dinner party given to the Board of Education by the domestic science class of the High school Thursday evening. Ever since the institution of the domestic science class in the High school it has been the custom for the girls to exhibit their prowess to the members of the board by means of an annual banquet.

Professors Barnes and Hawkins were guests also of the young women, it being Prof. Hawkins' birthday anniversary. They deserve much commendation for their progress made in the culinary art. The banquet was under the supervision of the domestic science teacher, Miss Bilman.

Much merriment was created at the Y. W. C. A. on Thursday evening when a mock wedding was held. The large alcove at the front of the building on the second floor was converted to floral bower with the use of dogwood and other spring flowers and the bride and groom took their positions to the strains of the wedding march played by Miss Junia Sells. The bride was Miss Jennie Reynolds, who wore a lace gown (converted to such from the curtain draperies). The groom was Miss Florence Bloom, while the bride was given away by her father, Miss Della Prior. The remainder of the bridal party were the mother, Mrs. Pearce; maid of honor, Martha Stuber; bridesmaids, Rhoda Martin and Norma Moore; ring bearer, Mary Stickle; flower girl, Mary Hagen; usher, Lottie Johns; minister, Miss Ruth-Crosby; best man, Mary Walker; grandmother, Charlotte Sigman.

At the conclusion of the ceremony a wedding dinner was served to

Nothing Makes Cake So Good As

Snow-Mellow

You will be only too glad to bake cake at home, once you realize how much more delicious it is than any cake you ever bought. Beat up a tablespoonful of Snow-Mellow to make a filling for a two-layer cake, or one and one-half spoonfuls if you want a three-layer cake, as shown above. Let the layers cool, then spread them thick with Snow-Mellow. Set aside a few moments to stiffen. Then build up the layers and spread icing around top and sides. This one of 28 recipes, shown in booklet furnished by your grocer, with our special beater—both free—with every box of Snow-Mellow. Every box makes desserts for seven meals, for four to six people. For Snow-Mellow and for its today if your grocer hasn't it in stock, and you'll send us his name and 25c, we will mail Snow-Mellow with recipe book and beater, FREE. LESSON XII—PART I.

Exercises for Physical Culture.

The most convenient time for doing exercises is in the morning before dressing or just before retiring. This does away with the necessity of disrobing during the day, for it is obvious that the best results cannot be obtained while wearing corsets or any form of heavy clothing.

The exercises I am giving first are for all women, whether stout or undeveloped. They limber the body, bring into play unused muscles, increase breathing capacity, tone up the nerves and improve the general health of the body. They will also give grace and elasticity of movement.

This latter point is an important one just now when the new styles in gowning call for a corresponding change in movement, walk and attitude. Remember that it is only the woman whose body is in correct poise that can stoop gracefully and that attitudinizing, graceful and attractive when the muscles are in perfect training, becomes stiff and awkward when the body is not responsive.

Only Ten Minutes.

These exercises can be done in ten minutes, night or morning. They will tire you at first, for if you have been neglecting physical work entirely, they will call into play muscles that have not been used. Do them with your mind as well as your body; get the fullest measure of good out of them, and, as you note improvement day by day, you will find them more interesting.

Begin the day with the breathing exercises given in Lesson XI, with Ex. A. Stretching. Stand with feet against wall or door, chest touching; lift arms to shoulder and then over left shoulder and as far as possible. Feel the working of the muscles across the back. Repeat ten times to right, ten times to left.

Lesson XII to be continued.

RELIEF FROM CONSTIPATION

It's Me For Dr. Edwards' Olive Tablets.

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets, while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing, vegetable laxative. No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bed time.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. The Olive Tablet Co., Columbus, O. All druggists.

Contest Is Still Open

Contest coupons may be obtained up to 6 p. m., May 18. Solutions may be submitted from May 19 to 30. Each contestant may submit not less than 70 nor more than 350 coupons. All coupons must be filled according to the rules and each set of solutions must be accompanied by a large sheet containing the answers that are written upon the coupons. The Advocate recently contained one of these blank sheets. Another will appear before the contest closes. The Advocate has tried to answer every fair question that has been asked. If any contestant has failed to see his question answered, ask it again.

The Advocate is asked several times every day whether the contestant who submits 70 coupons will have as good a chance as one who submits a larger number. If one submits 70 coupons and gets every answer correct, nobody can beat him—unless another person with 70 correct out of 70 coupons has a more neatly prepared list of answers. It should be understood that each contestant is allowed to submit from one to five answers for each picture, not more than 5. If one taking advantage of this fact, submits 350 coupons and gets the right answer to all 70 pictures, he or she will rank higher than one who submits 70 coupons and gets 69 right. It should also be remembered that the first prize is given to the one who gets the greatest number of correct answers in the fewest number of coupons.

It stands to reason to believe that with 5 chances one has a better opportunity to get the right answer than with only one chance. Several people are now starting in the contest. They have until next Monday to obtain coupons and until May 30 to send their solutions. There are 126 prizes worth \$3,846.

More than one person in a family may send in solutions but no one person is allowed to send in more than one set of answers. The Query column appears on page 2.

patches from Buenos Aires told of continued extraordinary rains and heavily increasing damage. The market here opened 1-2 to 7-8 higher and made a material additional upturn.

Wheat ascended with corn. Besides there were advances at hand that injury from Mexican fly was becoming more extensive, especially in Illinois. Opening prices ranged from the same as last night to 5-8 up and some further gain was scored before any reaction set in.

Oats went up, influenced by other grain. Several prominent houses were large buyers.

Sulphur cereals carried provisions along. First sales were 2 1-2 5 to 10 higher, and the advance was well maintained.

HUERTA DID NOT ORDER RESISTANCE

TO AMERICAN LANDING PARTY AT VERA CRUZ, SAYS MEXICAN ARCHITECT.

But General Maas on His Own Responsibility Discarded Command of Retreat.

(Associated Press Telegram)
San Francisco, May 15.—That Provisional President Huerta had issued specific orders to General Guaymas, commanding the Mexican force at Vera Cruz to offer no opposition to the landing of the Americans there and that those orders were disobeyed by General Maas on his own responsibility, is a statement vouched to today by E. De Morelos, a Mexican architect, on his arrival here from Vera Cruz via New Orleans.

"I had confidential information," said De Morelos, that Huerta and General Blanquet minister of war had ordered General Maas not to resist the American occupation but to retreat with his men to the hills. "I talked with Maas on the evening of April 20. He told me he had received such orders and that they had not been countermanded. But," he said, "I am going to resist, notwithstanding."

"On receiving news of the landing of Admiral Fletcher's marines, Maas precipitately fled, at nine o'clock on the morning of April 21, leaving his sword, flag, decorations and personal effects in his residence at the Commandancia."

De Morelos is accompanied by his wife, formerly Mme. Laure Prevot of Paris, a portrait painter. They remained in Vera Cruz during the fighting, leaving there May 3 on the Norwegian steamer Haakon for New Orleans, arriving here last night. After Maas flight his daughter, Senora Rodriguez, wife of a Spanish resident of Vera Cruz, went. De Morelos said to the French consul and begged him to recover her father's sword and flag decorations. This the consul did.

VALLON TOOK THE STAND IN BECKER CASE

(Associated Press Telegram)
New York, May 15.—New witnesses for the state were waiting today to be called to testify at the second trial of Charles Becker, former police lieutenant on charges of having instigated the murder of Herman Rosenthal, the gambler, who is alleged, he feared was preparing to accuse him of receiving graft in return for protection to gambling houses. With the conclusion of the testimony of Harry Vallon today it was expected that District Attorney Charles S. Whitman would call several witnesses who did not testify at the first Becker trial. Vallon is the last of the three principal witnesses and the prosecution probably will complete its case on Monday or Tuesday of next week when the defense will open.

BIGGEST DEAL EVER BEFORE PUBLIC UTILITIES

(Associated Press Telegram)
Columbus, May 15.—Request for approval by the Ohio public utilities commission of the proposed consolidation of the New York Central and Lake Shore railroad systems on a \$300,000,000 basis was filed with the commission today. The commission will hear the request June 9. The proposed combination represents the biggest deal ever considered by the utilities commission. By its terms the New York Central and Lake Shore and nearly all of their subsidiary lines will surrender their stock in return for stock of the consolidated system which will be known as the New York Central railroad company and will be capitalized at \$300,000,000.

MISSING HEIRS.

Anyone having any knowledge or information concerning the whereabouts of John Martz or his family, who in 1852 lived about a mile and one-half northwest of Adams, Hamilton Township, this county, will please communicate at once with the undersigned in trying to settle.

John Martz had several children, and his sons names were Samuel, John Jr., and Martin. The latter was living in said township as late as 1867, probably later. John Martz and his family are heirs of the Frederick Phillips' estate, which I am trying to settle.

ONE THOUSAND DOLLARS IS THE VALUE SET FOR THREE BOTTLES OF QUAKER EXTRACT

Listen to a Report of a Pioneer of Petersburg

If ever it has been proven that Quaker Herb Extract is a most wonderful remedy for stomach trouble of all kinds, it was proven in the case of Mrs. J. J. Westmoreland, 326 Lawrence street, Petersburg, Va., who repeated at the City Drug Store as follows:

"My stomach complaint was indeed chronic, because I have suffered untold misery for the past four years, so bad that my stomach at times could not even retain cold water."

"She had belching and bloating, pains in the stomach, side, chest, fluttering of the heart, dizziness of the head, and had smothering spells so bad that she had to sit up at night. She had tried all kinds of remedies, but got no relief from any of them. She was getting worse all

the time, had about given up all hope of even getting well, when Gaskins, the Quaker Health Teacher, came to Petersburg."

After reading some of the remarkable case Quaker had cured, she called and purchased a treatment. After taking three bottles of Quaker Extract, she said: "All my misery has gone, and I can eat anything I want without any fear of its hurting me afterwards. I want not only the people of Petersburg but the world to know what Quaker Remedies have done for me, so that others who suffer can know that at last there is a cure for them. I would not take a thousand dollars in exchange for what Quaker Herb Extract has done for me."

Anyone who does not believe this statement may call on, phone or

write Mrs. Westmoreland, and she will gladly tell you what Quaker has done for her.

Now with all the facts you have read and heard from your friends and neighbors, why will you suffer longer? Start today, and get well. You want to feel good. If you stay in that rundown, weak, poisoned condition longer, you will soon be a charge on your friends, and you know well how long people care for that kind of trouble, so call today, get well and happy again. So call at the City Drug Store and start your treatment.

If you cannot call, order by mail. The goods will be sent to you by express.

Quaker Extract, \$1.00; three for \$2.50; six for \$5.00. Oil of Balm 50c.

POSTOFFICE INSPECTOR IMPORTUNED

BY OWNERS OF PROPERTY AND REAL ESTATE DEALERS HAVING PROSPECTS.

Korzenborn Brewing Property One Of The New Sites Offered For Federal Building.

Newark property owners and real estate dealers who have property holdings that come within the legal provisions made for the erection of a federal building, are today besieging A. S. Macgregor, site agent of the treasury department at Washington, for consideration of their offering for the new postoffice.

Already thirteen sites have been presented for the consideration of Mr. Macgregor, who said it was desired that the lot be 160x160 or as near that dimension as possible, and that it would be located in the central part of the city and as near the business district as possible. The 80 rod boundary for railway stations will also be considered, although this consideration is not absolutely necessary. The government, having previously purchased a lot on South First street which afterwards proved unsuitable, it is probable that in the selection of a new site an effort will be made to effect a trade, with a monetary consideration.

Among the new sites to be offered today is one belonging to the Korzenborn estate, which is bounded by Franklin, First and Walnut streets. Mr. Macgregor will remain in the city until Monday considering the property before his report on desirability is forwarded to Washington.

RHEUMATIC PAINS AND SWELLINGS GO

Rheuma Acts Quickly and Surely—Money Back as Quickly if It Fails.

Thousands of persons during the last year freed themselves from the bondage of Rheumatism, rid themselves of the torturing pain, reduced the swollen joints, threw away canes and crutches, and from helpless beings became able to work and be of use to themselves.

"Bijou Theater, Tyrone, Pa., Jan. 13, 1913.—My wife and I, performing a sensational bicycle act under the stage name, 'The Torleys,' are well known all over the United States and Canada. Last summer I was so crippled with Severe Rheumatism in my hips I could not walk without crutches I spent over \$300, but the doctors did nothing for me. I had tried nearly everything but was finally persuaded to try RHEUMA. By the time I had taken three bottles the Rheumatism had entirely left me. Since then I have sent RHEUMA to every friend whom I knew had Rheumatism. Two have already told me it has cured them."

—Gay Torley, 129 Summit ave., St. Paul, Minn.

Dr. J. B. Store guarantees RHEUMA for Rheumatism, Gout, Lumbago, Sciatica, Arthritis, Chronic Neuralgia, and Kidney disease or money back—and only 50 cents a bottle.

THROWN OUT OF THEIR HOME

Mr. Smith, who had lived in one house for 14 years, paying \$10.00 per month, was put out of the house because the property was sold. Mr. Smith in telling a friend said he had paid \$1,650 to his landlord and now had nothing but receipts to show for it. His friend said, "Well that is tough. I saved up \$300 and paid it on a house, agreeing to pay \$1,200 more, which I did. Now I am selling it for \$2,500. I feel more than satisfied with my investment." This speaks for itself. I have similar opportunities for you. Don't be a fool and throw away hard earned money.

If you want to buy a house or lot for cash or on monthly terms, I have it. If you want a quick sale for your house, lot or farm, don't waste time. See me.

Open Saturday evening.

TURNED COURT PROCEEDINGS INTO FARCE.

LONDON, May 15.—Sentences of a month's imprisonment each were pronounced today on "General" Mrs. Flora Drummond and Mrs. Dacre Fox, two militant suffragette leaders. They were charged with disturbing the peace by camping on the doorstep of the residence of Sir Edward Carson and Lord Lansdowne yesterday.

The accused women refused to give bond to keep the peace for six months. They turned the court proceedings into a farce by interrupting the evidence and by jeering the magistrate while he was pronouncing sentence. When ordered to the cells, the women became so violent that it was necessary to call in eight policemen to remove them from the prisoners' enclosure. They were dragged out of court screaming and shrieking.

MELLEN WILL PROCURE ALL DOCUMENTS

AND WILL PROBABLY BE ON WITNESS STAND ALL NEXT WEEK.

Hardly Probable That Wm. Rockefeller and Other Sick Directors Will Appear.

Washington, May 15.—Former President Charles Mellen, of the New York, New Haven & Hartford railroad, after a conference with Chief Counsel Folk of the interstate commerce commission, left today for New Haven, Conn., to obtain the documents and papers which the committee desires to have as an elucidation of Mr. Mellen's testimony.

Mr. Mellen is expected to return to Washington next Monday, prepared to continue his testimony Tuesday.

In the opinion of Mr. Folk, Mr. Mellen will be on the witness stand possibly all of next week. The subpoenaed directors of the New Haven, William Rockefeller, Lewis Cass Yedyard, George F. Baker and Mayor McCulloch Miller, have been ordered to hold themselves in readiness next Tuesday to be examined. It is regarded as quite unlikely that either Mr. Rockefeller or Mr. Miller, both of whom have presented to the commission certificates of illness through their physicians, will appear. No decision has been reached by the commission as to whether dispositions shall be taken from them at their present places of residence. Mr. Rockefeller is at Jekyll Island, Ga., unable, according to his certificate of his physician, to speak above a whisper; Mr. Miller is confined to his home and is said to be wholly unable to transact any business. Mr. Yedyard and Mr. Baker both have signified their willingness to testify whenever they may be called.

NEWEST FRAUD IN INSURANCE IS DISCOVERED

Columbus, May 15.—Collecting "first payment" on an insurance policy from physicians after promising appointment as medical examiner of the insurance company, which he pretended to represent, is the newest form of insurance fraud, as discovered by the state insurance department.

Harry L. Goodbread, chief warden of the insurance department, after returning from Cincinnati, where he investigated the methods of work of E. S. Hall, convicted in police court there several days ago, said today he is convinced Hall is the same man who has been swindling physicians in all parts of Ohio for the last three months. The insurance department has been watching for the swindler, and is gratified at his arrest.

Hall's plan was to go into a strange town, tell a physician he represented an insurance company and offer to make the physician the company's medical examiner. First the physician would have to be a policy holder, he would explain. The victim would agree to take out a policy, usually for \$1,000, and would make the first payment to the supposed agent. Nothing ever would be heard of the proposition again. He used a different alias and insurance company's name in each town, it is alleged.

Hall was a paroled convict from the Indiana state prison, where he served time for embezzlement. He is said to have been in jail at Dayton for having counterfeit money in his possession.

TEACHERS WILL HEAR LECTURES FROM PHYSICIANS.

Columbus, May 15.—Teachers attending institutions next fall will be given lectures on hygiene subjects for transmission to their pupils by representatives of the Ohio State Medical Association. Frank W. Miller, superintendent of public instruction, today received notice of appointment of a committee of physicians and dentists to prepare the lectures which will be printed and distributed for reference during the school year.

The committee consists of Dr. P. B. Brockway, of Toledo, chairman; Dr. E. F. Campbell, Columbus, secretary of state board of health; Dr. H. M. Platter, Columbus; Dr. W. H. Peters, Cincinnati; Dr. E. A. Peterson, Cleveland, and Dr. F. R. Chapman, Columbus. Dr. H. C. Brown, Columbus, president of the National Dental Association and Superintendent Miller also are associate members of the committee.

MEXICAN BOATS LEAVE TAMPIOCO. ONE IS DERELICT.

Washington, May 15.—Admiral Badger reported that the Mexican federal gunboats Saragoza and Bravo and the tug Tampico which left Tampico yesterday followed by American gunboats and two destroyers, were expected to reach Puerto Mexico early tomorrow. He reported the capture of Vera Cruz abandoned in the Pancho river.

MEXICAN DELEGATES REFUSED TO TALK.

St. Augustine, Fla., May 15.—The Huerta delegates left here at 12:33 p. m. for Jacksonville. They refused to talk to newspaper men.
